

# ARMAGEDDON

*" The first time I heard the Armageddon Head I was blown away by the Tone! This Amp is the real deal! "*

*- Greg Tribett  
Hellyeah*

*" I love my new Egnater amps!...Heavy distorted channel that rivals anything out there. "*

*- Tom Maxwell  
Hellyeah*

Armageddon is here! Egnater's 120 watt, 3-channel, MIDI ready powerhouse takes you on a journey from pristine clean to ultra-high gain assault. The award winning Armageddon sets a new standard for all to follow. Hear the Armageddon on Hellyeah's new album Band of Brothers and on tour.

The Armageddon exclusively features the ISP® Decimator™ G-String for the ultimate in noise reduction. Assignable master midrange, XLR line/record out, programmable seven button foot controller and external biasing are some of the weapons in Armageddon's impressive arsenal.
